PROFESSIONAL EXPERIENCE

Oryx Sky Education | Dubai, UAE

Mar 2024 – Present

Technical Operations & EdTech Specialist

In partnership with World Knowledge / KSA

- Administered server and hosting infrastructure via Plesk and cPanel, including DNS, SSL, WordPress deployments, and security configurations across Dubai and KSA operations.
- Provided Tier-2 IT support for schools and internal teams covering Outlook, software, laptops, networking devices, and EdTech platforms.
- Coordinated cross-border technical operations and EdTech rollouts with the partner team at World Knowledge (KSA), ensuring consistent delivery across both markets.
- Managed student and teacher onboarding across multiple educational platforms and delivered hands-on training sessions on robotics, drones, and cybersecurity tools.

Tech Titans Technology | Homs, Syria (Remote)

Jun 2022 – Present

Lead Flutter Engineer & Client Relations

Portfolio: [techtitansdigital.com](#) | *Instagram:* [@techtitans](#)

- Co-founded a mobile development studio delivering production Flutter applications for clients across Syria, KSA, and the UAE.
- Managed the full client lifecycle from requirements gathering and proposals to delivery, post-launch support, and account management.
- Led a cross-functional team of 4, coordinating between Flutter developers, UI/UX designer, and backend engineer to deliver projects on time.

C++ Programming Instructor

- Delivered C++ programming courses to students aged 10–18, designing hands-on lesson plans and age-appropriate coding exercises.
- Mentored students through debugging sessions and small projects, building problem-solving skills and logical thinking.

SELECTED PROJECTS

SuperDriver | Multi-App Food Delivery Ecosystem (Live on Syria App Store)

Flutter • Django REST • Cloud Firestore • Firebase • Google Maps • Clean Architecture

- Co-built a 4-system food delivery platform including customer, driver, and admin Flutter apps with a centralized Django web dashboard.
- Architected scalable Flutter apps using Clean Architecture and Cubit, with real-time updates, push notifications, Google Maps, and bilingual Arabic/English support.

Monawbaty | Shift Booking App for Syrian Arab Red Crescent Paramedics

Flutter • Django • Firebase

Originally developed as graduation project, later launched to production.

- Built a shift-booking and scheduling application serving 500+ active paramedics, reducing scheduling conflicts and streamlining shift management.
- Delivered full authentication, shift browsing, and booking workflows with real-time availability updates.

Atlas Company | Field Operations Tablet App (Dubai, UAE)

Flutter • Cubit • Firebase • Google Maps • Clean Architecture

- Developed a Flutter tablet CRM app supporting field operations for 50+ employees across Dubai.
- Implemented offline-first sync, GPS tracking, digital signatures, PDF reporting, and FCM push notifications for real-time field task management.

EDUCATION

Al-Baath University | Homs, Syria

2018 – 2023

Bachelor of Engineering in Information Technology (IT Engineering)

VOLUNTEERING

Syrian Arab Red Crescent | Homs, Syria

Sep 2018 – Oct 2023

Paramedic & Operations Centre Coordinator

- Served as certified paramedic for 5+ years, promoted to Team Leader coordinating field missions and mentoring volunteers.
- Supported Operations Centre dispatch including emergency communications, field team coordination, and shift oversight.

Syrian Arab Red Crescent | Homs, Syria

Jun 2023 – Jan 2024

Human Resources Volunteer

- Supported recruitment operations by processing candidates' data, scheduling interviews, and maintaining structured digital records for the HR department.

ACHIEVEMENTS

- STEM MENA Conference & Awards, Dubai

2024 & 2025

 - Completed 8-hour CPD program on STEM education, digital transformation, and sustainability-driven solutions.
- Middle East Language and Literacy Conference, Dubai

2024 & 2025

 - Completed CPD training on the future of language education, digital learning platforms, and EdTech integration.
